

notebound

A font built from the turns of the original nb mark. Open bowls, flat ends, one shared grid.

Lowercase letters, body-height numbers, Western European accents, punctuation, currencies, mathematics, arrows, and symbols. A display face for titles, identities, and typographic patterns.

The construction

The lowercase body occupies a 400 × 400 unit square. Ascenders rise to 800; descenders fall to −400.

A 60-unit stroke turns around 170-unit centerline radii. Standard forms advance 500 units; i/j/l use 250 and m/w use 750. Every advance fits the same 250-unit grid.

Spacing comes from the letter widths, with no automatic kerning. Repeated patterns keep their grid positions. The nb logo is also available as an optional ligature and at U+E000.

Letters & numbers
